

Market Merchants are the businesses on the Chicago International Produce Market® that bring in fresh produce from around the world. You can take advantage of the varieties of the world anytime of the year for most produce.

Each merchant on CIPM offers their own expertise in the items they specialize in, offering you the best price and variety possible.

When buying from CIPM you are able to walk the dock and enter any merchant, walk into the state of art coolers to inspect your produce and choose what you want to buy. You have the choice of driving your own truck to the market, loading it and driving off with hassle free or take advantage of the many cartage services offered on CIPM to deliver it for you. There are 22 merchants on CIPM, only the merchants below own profiles.
